We live in world that is flooded with processed, genetically modified foods. Use ghee and you will see what many top professional athletes, nutritionists, scientists, and successful dieters have already discovered. Ghee is a superfood, according to many top nutritionists and athletes, because of its high healthy fat content. YES, we said healthy fats! Monounsaturated and polyunsaturated fats are essential for those who want to cut body fat and increase their overall health. Ghee a healthier source of essential fats, but modern science has also shown us that ghee actually boosts the health benefits of all the foods cooked with it by enhancing the effects good nutrients within and passing through all unnecessary fats and fibers. Ghee is the purified essence of butter and is LOADED with omega 3 and omega 9 essential fatty acids, a great source of Vitamin A, D, E, and K, and it is also ideal for fighting against the destructive effects of free radicals! When using ghee you will have the pure, delicious healthy fats of butter but no potential problems from lactose, whey, or casein. Ghee is also extremely helpful in improving digestion by jump your starting digestive acids to speed up the breakdown of foods whereas ordinary butter and oil will slow down your digestive process, making food sit heavier in your stomach for longer periods.
